40,000 ft. British Picnic

In 1692, Tony Willis in his book “Origins de la Langue Francaise” recorded the first ever use in print of a recently created term that was increasingly popular. That term was pique-nique and it came to describe a group of people who each contributed something to a dining experience by providing different items of food & drink.

More than 300 years later Deluxe defines the term “pique-nique” to bring you the best that the British Isles has to offer to create your very own “40,000 ft. on board picnic”.

BEEF

We source our beef from only the finest highland cattle. The cattle graze on ancient pastures, drink pure highland water and come wintertime, feed on the barley draft from local distilleries. Our beef is hung on the bone for as long as three to four weeks and the result is the tastiest, most tender beef available.

LAMB

We are renowned for our lamb. The unique taste of our Cornish lamb is due to the warmer climate of Launceston. Added to this, the granite composition of the soil gives rise to the perfect conditions for natural herbs to grow in lush green pastures. It's precisely those aromatic herbs that provide our lamb with the most distinctive of flavours

FISH

We carefully choose our fish suppliers for the freshness of their products, their quality and incomparable traceability.

The wild salmon, bluefin 'sashimi grade' tuna and Dover sole are always popular and customers are now ordering Arctic char and mahi-mahi which are flown in fresh to our supplier daily, as are the huge fresh Canadian lobster tails.

Deluxe also offers the stunning Kamchatka giant king crab legs caught in the Bering Sea.

POULTRY

Any of our dishes can be prepared with either corn-fed Loire Valley hens or free-range chickens.

VEAL

Deluxe passionately believes that veal from the UK's organic farms provide a higher welfare rearing system, which in turn produces 'British rose veal' characterized by its robust meat, pink in colour, aged for increased flavour and a good bite! "A dish to grace any table".

GAME

We carefully select and inspect all of our suppliers product lists in order to create the best possible game dishes for our clients keeping a special emphasis on the product seasonality.

A special mention is reserved for our venison, which is sourced from the Royal herd at Balmoral Castle in Scotland, where it is hung by the estates' own game keepers to improve texture and flavour, making it a real treat for even the most sophisticated palates.

Allergens

We produce our food in kitchens where allergens are handled by our people, and where equipment and utensils are used for multiple menu items, including those containing allergens (Celery, Cereals Containing Gluten, Crustaceans, Eggs, Fish, Lupin, Milk, Molluscs, Mustard, Nuts, Peanuts, Sesame Seeds, Soya & Sulphur Dioxide).

Although your meal is prepared with care, we cannot guarantee it will be allergen free, even after ingredients have been removed on request.

We also cannot guarantee your meal will not come in to contact with other allergens during delivery.

If you have any food allergies, then please alert us in your order.
